

Orofino Creek Watershed Road Infrastructure Upgrade (Clearwater CD)

Program	Water Quality Implementation		
Lead Implementer	Clearwater Conservation District		
Funders	Idaho Soil and Water Conservation Commission, Private Party		
Project Primary Contact	Tim Roehr (clearwater.swcd@gmail.com)		
Project Stage	Planning/Design	Duration	2020
Estimated Total Cost	\$79,360.00	Secured Funding	\$39,680.00
No Funding Source Identified Yet	\$0.00	Targeted Funding	\$39,680.00

Natural Resource Projects & Practices ➤ Water Quality Implementation

PotlatchDeltic has two major infrastructure projects planned in the Orofino Creek watershed within Clearwater County. The 1st sub-project is the removal and replacement of 54 undersized and outdated culverts varying in size from 18" to 42" along Orofino Creek from Hiway 11 to Cascade Drive in Orofino. Orofino Creek is a Class I fish-bearing stream. The estimated costs would be around \$40,000. The 2nd sub-project would be the removal and replacement of 30 undersized and outdated 18" culverts on the Shanghai Road between Shanghai Summit and Rhoades Creek. The estimated costs would be around \$24,000.

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
